

# TOP **10** THINGS **NOT** TO DO WHILE TOASTING BREAD

---

- 1 Do not stick a knife in the toaster.** If you don't think the toaster is working then call a licensed professional to inspect your toaster for problems.
- 2 Don't leave your toaster unattended while toasting.** (It's possible for a toaster to malfunction when in use. Keep a close eye to watch malfunctions.)
- 3 Do not stick your fingers in to the toaster no matter how tempting it may be.**
- 4 Do not engage in any kind of water sport near the toaster.**
- 5 Refrain from looking into the toaster too closely.** You are likely to get a black eye by pulling this stunt. Or even worse, loose an eye.
- 6 Do not eat the toast while in the toaster.**
- 7 Do not toast sugar cubes.**
- 8 Do not spit into the toaster.**
- 9 Toast bread with any kind of condement already on the bread.** This will create an unpleasant burning smell.
- 10 And what ever you decide to do, DO NOT - I repeat - DO NOT decide to toast bread from inside the shower.**
